

YUPO[®] TRANSLUCENT

MAKE IT SHINING.

BOOK COVER

YUPO® TRANSLUCENT TPRA 90

BACKLIT POSTER

YUPO® BACKLIT BLU 150

YUPO® TRANSLUCENT AND BACKLIT - TO EMPHASIZE YOUR PRODUCTS

YUPO® Translucent is YUPO®'s product range for backlit applications combining water and tear resistance with excellent light diffusion. The YUPO® Translucent range offers the ideal surface for a wide range of applications. While its paper-like feel and superior colour reproduction enable designers to fully express their creativity, its synthetic nature ensures a durable and long-lasting presence at the point of sale.

APPLICATIONS

- Back-light posters
- various POP
- displays
- book covers / inserts
- magazine inserts
- calendars
- bookmark

PRINTING AND USAGE INSTRUCTIONS

The various translucent grades support a wide range of printing methods. The usage of oxidative inks or UV-inks for printing is recommended. Please contact your ink manufacturer or YUPO® Europe for recommended types. As YUPO® is not absorbent it has a longer average drying time than paper.
