YUPOFACESTOCK SECURITY - FOR TAMPER-EVIDENT LABELS

The unique multi-layer structure of YUPO's synthetic paper allows various possibilities for labels with security functions. Labels printed on YUPO Security grades will leave permanent evidence after removal, making them a great choice for anti-counterfeit applications. The available grades include clear, white and destructible versions for additional design flexibility. All security labels are printable in: Flexo, Letter Press, Sheet-fed Offset.

USES

- Safety labels with residue
- Seal labels
- Warranty seal

CHARACTERISTICS

- Tamper-evident
- Waterproof
- High-quality printing surface
- Manipulation is immediately visible
- Permanent residue on application surface
- Customizable "VOID" text
